Dear Madam/Sir,

As we reported in the previous years, we are going to inform You every year about the applications we can accept next year.

In 2012 we can accept applications for small children under 6-7, for PAP-s who accept some healthy, mentally or behaviour problems. We accept applications for smaller children for three or more siblings, even under 6- 7.

In 2012 from each accredited body or competent authority we accept 30 applications for the adoption of a child or siblings elder than 6-7 years.

We accept from singles only applications for children elder than 10. We accept applications without any limit from couples who want to adopt children elder than 10 years old.

As we referred that we oversee our registry every year and we inform You at the end of 2012 about the applications we accept in 2013.

Best regards

Zoltán Dudás
head of department
